Capabilities Statement

In 2013, Frank Sleeper founded F.C.S. Consulting, Inc., allowing him to leverage his 20+ years of Software Engineering, Analysis and Management expertise to solve client's particularly complex software-development-oriented management, product, project, and process problems, enabling clients, in concert with FCS, to aggressively bring world-class solutions to market. FCS boasts an impressive list of clients such as Forbes Media, SONY, Willis Towers Watson, TD Waterhouse just to name a few.

F.C.S. Consulting, Inc. is a Software Engineering Firm that helps businesses achieve their software vision. Our expert professionals will partner with you to deliver quality solutions, fast. Bringing to bear over 20 years of experience in Analysis, Architecture, Programming, Project Management and Executive Management, FCS develops, uplifts and optimizes major presence web applications to internationally distributed multi-user desktop applications to high-performance data processing.

Integrity, Honor, Courage and Commitment are instilled within FCS. Our clients trust us - trust earned by meeting agreed upon software engineering goals, ensuring clear communication and providing predictable, consistent results.
